Технические характеристики на аксессуары компании **TAIVER**

Виды товаров: комплекты гибкой аспирационной системы, шланги, прикладные фильтры для пистолетов, линейные фильтры, сетевые фильтры, сита для сетевого фильтра, дисковые фильтры, мини-фильтры, насадки, регулируемые наконечники, воздушные наконечники, насадки, расширения, шарнирные удлинители, прижимные ролики, ролики, пневматические мешалки, инжекторы, комплекты манометров, адаптеры для двух пистолетов, фитинги, бункеры, локти длинные, шланги высокого давления и др.

Accessories

Accessories for airless systems are add-ons and tools that can improve the efficiency, versatility and quality of applying paints, coatings and other materials using airless pumps and guns. Here are some examples of airless accessories:

1. **Interchangeable Nozzles:** Interchangeable nozzles allow you to adjust the width of the sprayed material stream, influencing the width of the covered surface. There are nozzles with different sizes and angles to suit different application needs.
2. **Extensions and Extensions:** These accessories allow you to reach surfaces outside the direct range of the airless gun, such as high ceilings or distant floors.
3. **Filters:** Filters can be inserted between the pump and gun to remove unwanted particles from the sprayed material, reducing the risk of blockages and improving the quality of the finish.
4. **Pressure Regulators:** These accessories allow you to adjust the pressure of the material flow, giving you greater control over the speed and amount of material you spray.
5. **Agitators and Mixers:** The agitators and mixers ensure that the material inside the tank or container is homogeneously mixed, ensuring a uniform consistency during application.
6. **Adapters and Connectors:** Adapters and connectors can be used to connect different types of hoses, tanks and equipment to the airless system.
7. **Tank Mounts and Accessories:** If you are using paint tanks or external containers, there are mounts and accessories that make it easier to use and connect to your airless system.
8. **Measurement and Monitoring Tools:** Some accessories allow you to monitor pressure, flow and other parameters of the airless system to ensure accurate application.

The use of airless accessories can improve effectiveness and safety when applying paints and coatings, allowing for greater control over the finish and greater convenience during use. The choice of accessories will depend on the specific needs of the application and the type of work to be performed.

HIGH PRESSURE RETURN VALVE KIT

010328INJ – injection ball valve kit

Injection packer (many different models and sizes available)

010328INJ injection ball valve kit + **066002** hydraulic pressure gauge kit + **060017** injection kit (50 cm)

077400 airless gun + **060017** injection kit (50 cm)

high pressure hose ø 6 mm, length 10 m. (ref. **060020**)

airless gun W650TOP (ref. **077400**)

self cleaning tip c/w seal and guard (ref. **69AXXX**)

INJECTION ACCESSORIES

063153 – flexible resin suction system kit, stainless steel (2x)

060020 – high pressure hose kit ø 6 mm, length 10 m (2x)

066560 – 2 ways twin injector kit

066562 – 2 ways w mixer t injector kit

066555 – 3-way injector unit

066551 – static mixer 13/32 (pack 10 pieces)

066002 – connection kit with hydraulic pressure gauge

003850 – gravity tank kit 6 L. (2x)

0152500 – 25 l stainless steel tank kit, complete with lid and filter (2x)

BLACK SERIES

The new BLACK series pumps are airless, medium and large capacity equipment, designed and improved for spraying all products used in the construction industry, mechanical engineering, carpentry, etc. falegnameria, carpenteria, etc. They are very strong and easy to handle, and maintenance is very simple.

new lance bear for dense material, electric contact-less switch

ref. 078600E New lance bear with electric contact-less switch has been projected to work with heavy duty materials, such as gypsum, plasters, cement and heavy duty coatings with max. granulometry 3 mm. It offers high performance and it is ideal for professional. La nuova lancia bear è l'unica al mondo a montare un interruttore magnetico CONTACT-LESS, che funziona anche quando la lancia è completamente ricoperta di sporco, per una migliore affidabilità anche nelle condizioni più gravose.

S.S. nozzles set for new lance bear

- **078621** – S.S. nozzle ø 10 mm for new lance bear
- **078622** – S.S. nozzle ø 8mm for new lance bear
- **078623** – S.S. nozzle ø 6 mm for new lance bear
- **078624** – S.S. nozzle ø 4 mm for new lance bear
- **078625** – S.S. flat nozzle for new lance bear

hoses set for MTV 300

- **017801** – electric wire kit for remote control
- **060500** – compressed air hose kit ø 8 mm, length 10 m.
- **060560** – paint hose kit ø 25 mm, length 10 m.

stator and rotor set

- **017121** – stator
- **017120** – rotor

078600E – XXL-E electric switch airless gun

017801 – electric wire kit for remote control

060030 – high pressure hose ø 10 mm, length 10 m.

A decrease in overspray reduces pollution with benefits to the operator and the environment.

APPLICATIONS

Arcylate gels, 2k resins, most of 2k coatings with mixing ratio 1:1

APPLICATION'S FIELDS

Injection • Waterproofing • Sealing • Water stopping • Infiltrations • Crack walls

INJECTION ACCESSORIES

063153 – flexible resin suction system kit, stainless steel (2x)

060020 – high pressure hose kit ø 6 mm, length 10 m (2x)

066560 – 2 ways twin injector kit

066562 – 2 ways w mixer t injector kit

066555 – 3-way injector unit

066551 – static mixer 13/32 (pack 10 pieces)

066002 – connection kit with hydraulic pressure gauge

003850 – gravity tank kit 6 l. (2x)

0152500 – 25 l stainless steel tank kit, complete with lid and filter (2x)
